(b)—District—New International

#### LORD HARDINGE.

One of the Men Blamed  
for Mesopotamia Blunder.

#### Ask Women to Stay at Home Instead of Coming to France

(By United Press)

London, June 27—An appeal will shortly be made on American women to make a supreme sacrifice and stay at home instead of rushing to France to be near their husbands or relatives who may be killed or injured in fighting. The serious food shortage and also a lack of hotel and transportation accommodations makes it undesirable for the women to come.

#### Threatened with Isolation from World's People

(By United Press)

Berlin, June 27—Agitation for the immediate liberalization of Germany is growing, the conservation newspapers favoring greater reform. Prof. Huntze, hitherto conservationist, says "We Prussians cannot stand alone in the midst of Germany and the world and resist liberalism. We are threatened with dangerous isolation from the world's people."

#### Must Prove Services Indispensable to Secure Exemption

(By United Press)

Washington, June 27—Exemption for occupational reasons will be hard to be established, as the claimant will have to prove that the fruits of his industry is indispensable to the maintenance of the national interest and also that his services are virtually indispensable to the industry with which he is connected, and the appellate boards, not the local boards, are to determine these points.

#### Women Vote Wipes Out Liquor Sales

Winnipeg, Man., June 27—The Saskatchewan elections were held and the women voted for the first time, the liquor traffic being wiped out by an overwhelming vote.

#### VICTORY COMPLETE

Paris, June 27—So complete was yesterday's French victory in the Hurtebize section that the Germans did not attempt the usual counter attacks today.

#### American Troops' Arrive in France

(By United Press)

A French Port, June 27—The first detachment of American troops, Gen. Pershing's regulars, have landed.

#### Refuse Amendment Control of Beer and Wine Production

(By United Press)

Washington, June 27—The senate agriculture committee has refused the sub-committee amendment controlling both the beer and wine production and instead substitutes the house provision permitting the president to authorize the manufacture of wine.

#### Steel Arms are Saving U-Boats From Traps Set

(By United Press)

Providence, R. I., June 27—Automatic steel arms which reach out from German submarines push them away from the allies' trap nets are saving the U-boats according to a British official quoted here.

#### Increase Production and Effect Fair and Reasonable Prices

(By United Press)

Washington, June 27—The Council of National Defense and advisory commission are working in conjunction with the coal operators and have adopted resolutions tended to stimulate the production and effect fair and reasonable prices for coal.

#### Norway Reaches German Crisis Will not Submit

(By United Press)

London, June 27—Norway has reached a crisis in her relations with Germany and information indicates she will not submit to Germany's arrogant demands regarding commerce shipping. The German campaign has already reduced the Norwegian shipping by almost one-third to what it was before the war. It is believed Germany is trying to terrorize Norway who ships nickel, fish and iron to England.

#### General Pershing's Nephew Join the Army

FRANK PERSHING

One of the men in the ranks under General John J. Pershing in France may be his nephew Frank Pershing, a student at the University of Chicago, who was sworn in the other day as a private. Young Pershing led

#### ADMIRAL VON TIRPITZ.

Former German Naval Chief  
Is Suffering From Diabetes.

Photo by American Press Association.

Admiral Fred von Tirpitz, former German minister of marine, has arrived at St. Blaise, in the Black forest. He is suffering seriously from diabetes.

Grand Admiral von Tirpitz has been Germany's chief advocate of unrestricted submarine warfare and is known as "the father of the German navy."

He retired as minister of the navy in March, 1916, ill health being given as the reason.

#### Permit Chinese Coolies to Slip Into Country

(By United Press)

San Francisco, June 27—A federal investigation discloses that a graft ring made \$100,000 by permitting Chinese coolies to slip through the New England immigration station. The charges have caused the resignation of fourteen employees.

#### Send Delegates to Peace Conference

(By United Press)

Petrograd, June 27—The congress of workmen and soldiers have decided to send a delegation of six members shortly to Stockholm, England and France to urge a peace conference at an early date.

### STATE DAIRYMEN'S ASSOCIATION HERE

First Annual Summer Convention  
Opens at Chamber of Commerce  
Thursday Morning, June 28

"Brainerd is a Community that will Appreciate  
the Value of the Convention," Said  
Secy. Chris Heen

Co-operative marketing and selling of dairy products will be discussed by dairymen of state repute at the first annual summer convention of the Minnesota State Dairymen's association to be held in Brainerd Thursday and Friday, June 28 and 29.

This will be the first attempt to interest dairymen in a summer convention, but a record attendance is expected.

"In selecting Brainerd as the place for holding the first summer meeting," said Chris Heen, secretary of the dairymen, "the officers of this association feel that they have selected a community that will appreciate the value of this convention, and that the association can render a valuable service to the dairymen of Crow Wing county in the way of lending the aid of the association to build up the interest in dairying, the raising of better stock and better methods in care and feeding of dairy cattle."

Prizes aggregating \$130 are offered by the association and by Brainerd business men for the best eight herds exhibited. There will be keen competition.

The convention is of special interest because of the proposed \$15,000 cooperative creamery under process of organization by Brainerd farmers and dairymen.

G. B. Grout, manager of the Jean Duluth farm will be one of the speakers Friday. He will judge the stock and will make criticisms.

W. A. McKerrow, dairy division of the University State farm, is scheduled for an address on "Value of Keeping Herd Records" on that day, as is F. D. McClaren, of Carlton, who will discuss "Value of Farm Advertising."

Mayor R. A. Belse will welcome the delegates at the opening session on Thursday. Henry I. Cohen, president of the Brainerd Chamber of Commerce will speak, and "A Successful Dairy Community" as a "Village and City Asset" will be the subject of R. A. Lee, editor of the Long Prairie Leader.

H. Klidde of the state university farm will speak on the "Care and Feeding of the Dairy Cow", and the "Cooperative Creamery" is the subject of F. D. Currier, secretary of the Dairymen's association for eight years and at present manager of a successful cooperative creamery in Nicollet county.

The visitors will be taken for an auto tour under the auspices of the Chamber of Commerce Thursday evening. After the tour they will be banqueted at the Ransford hotel.

Fred T. Lincoln, secretary of the Chamber of Commerce, gave these details of the big meeting tomorrow:

The opening sessions will be held at 9:30 a. m. at the Chamber of Com-

merce rooms. Mayor Belse is to deliver the address of welcome and President Henry I. Cohen of the Chamber of Commerce will speak as representing that organization. All sessions will be held at the Chamber and arrangements have been made for handling a large crowd.

Auto run 4 p. m.

An auto run to farms near this city will be made at 4 p. m. tomorrow immediately after the afternoon sessions. County Agent Colquhoun will head the tour and the handling of cars and the details are in the hands of John F. Woodhead of the Woodhead Motor company. At least 25 cars will be needed and every auto owner who has a car and will co-operate in this feature of the entertainment of the visitors is urged to notify him or the secretary of the Chamber of Commerce at once and to be on hand promptly at 4 p. m.

Banquet at 8 p. m.

The banquet in honor of the members of the dairymen's association will be held at the Ransford at 8 p. m. Brief talks by prominent dairymen will be expected. R. R. Wise will act as toastmaster. The hotel management is planning to furnish an excellent menu. The details of the banquet are in the hands of Chairman Henry Linnemann which insures that everything will be satisfactorily arranged for the entertainment of the visitors.

Local business men are invited to attend the banquet. The price for the same is \$1.00 per plate. The banquet will be free to members of the association.

It is desired that as many local people as possible attend the sessions of the convention and especially that there is a good attendance at the morning session Thursday in order to indicate to the farmers and visiting dairymen that this city is vitally interested in the work of promoting dairying in the section and in the general work of the association.

Stock Exhibit

The exhibit of stock will be held at Market Square near the county building and a permanent fencing will be erected for tying stock and for the general accommodation of owners who exhibit. This fencing is to remain on the grounds and will be available for Market Day auctions and other purposes of that nature. Permission to use the grounds for this purpose was given yesterday.

With fair weather, prospects are good for a large stock exhibit and much interest is being shown. The auto run will be made to a number of nearby farms in order that the visitors may see just what the ordinary farmer of this locality is doing in bettering his herds and in advancing dairying in Crow Wing county.

#### Will Seine Lakes for Rough Fish to Feed Inmates

(By United Press)

St. Paul, June 27—The state public safety commission authorizes the seining of lakes for rough fish to feed the inmates of the state institutions.

Frank Dunn took the stand in his own defense in the murder trial.

#### Senate Passes Daylight Savings Bill for 1918

(By United Press)

Washington, June 27—The senate has passed the daylight savings bill providing that beginning April 1, 1918 clocks in this country shall be turned forward one hour for five months thereafter.

**SCATHING BRITISH MILITARY REPORT**

London, June 27.—The most scathing and outspoken official report of the investigation of any military operations since the war began, not even excluding the report on the ill-fated Dardanelles expedition, has been made public. This was the report of the commission that has been investigating the Mesopotamia expedition.

Put briefly, the report finds the expedition was a justifiable military enterprise, but was undertaken "with insufficient forces and inadequate preparation," and its initial failure, with the loss of Kut, was due to lack of foresight, to mistakes and miscalculations.

The report apportions the chief responsibility on General Nixon, the former commander of the British forces in Mesopotamia, and on the viceroy of India, Lord Hardinge, and the commander-in-chief in India, General Sir Beauchamp Duff.

J. Austen Chamberlain, secretary for India, and General Barrow, military secretary of the India office in London, and the war committee of the cabinet itself also share the responsibility.

**GERMAN PROFESSOR TALKS**

Believes European War Will Continue Indefinitely.

Berlin, June 27.—In regard to the question of peace Professor Ferdinand Tönnies of the University of Kiel, famous as a political economist, declares in an interview:

"There is not a vestige of peace in sight. In my opinion the war will continue indefinitely. I am an out and out pessimist. I fear nothing good, nothing worth while will come out of the Stockholm conference."

"You must bear in mind it would be an unheard of self-sacrifice on the part of the German nation if it subscribed to the peace formula of no annexations and no indemnities. Hence it is Germany that sits with the trumps in its hands."

"I can also assure you a strong public opinion exists in Germany against a premature peace, not only among the upper classes, who after all are suffering most under the war, but also even among the large circles of the working classes."

**NORWAY ON VERGE OF WAR**

German Attacks on Shipping Causing Great Suffering.

New York, June 27.—Norway is on the brink of war and only waits the signal from the United States to join the allies, according to a member of the Norwegian secret service, who says:

"The practice of German U-boat commanders to sink Norwegian vessels is bringing the country close to starvation. All have reached the limit of human endurance. When I left Christiania two weeks ago there was general talk that a declaration of war may come any day and that the allied fleet would make a base there immediately. A strong patrol then would be maintained westward to the north coast of Scotland. Afterward fleets of destroyers will cleanse the North sea of submarines."

**RUNS AGROUND DURING FOG**

Cruiser Olympia Said to Be in Bad Position.

Block Island, R. I., June 27.—The United States cruiser Olympia, Admiral Dewey's flagship at the battle of Manila bay, ran aground in the fog off Block Island. The cruiser was reported in a bad position, with considerable water in its hold.

Chief Machinists' Mate William M. Babb lost his life when he was struck on the head by a falling hatch. No other fatalities were reported.

Warships and wrecking vessels are standing by the ship.

**DUNN WILL GO ON STAND**

Accused Will Deny Hiring Gunmen to Murder Wife.

St. Paul, June 27.—Frank J. Dunn, on trial in the Ramsey county criminal court on a charge of hiring the Redenbaugh gunmen to murder his wife, Alice McQuillan Dunn, will take the stand in his own behalf.

Dunn will deny that he conspired with the Redenbaugh gunmen or, previous to that time, with Al Brown and S. C. Ferdis, to murder his wife. He will admit the visit to his safety deposit vault the day his wife was killed, but will assert it was simply to accompany his brother Edward to get a note due the latter.

**MONTANA GUARDSMAN SLAIN**

Accidentally Killed by Comrade While on Duty.

Missoula, Mont., June 27.—Corporal Clarence Shaw, E company, Second Montana national guard, was shot through the heart and instantly killed by Acting Corporal Arthur Kline of the same company. The shooting was accidental, reports say.

The tragedy occurred near a railroad structure the men were guarding. Shaw enlisted at Miles City and gave his home as Pryor, Okla. Kline's home is in Denver.

## WOMAN'S REALM

### RAISE \$4,000 FOR RED CROSS

Committee Chairmen and War Workers Urged to Report at Once so Totals Can be Compiled

### THE OUTSIDE MEETINGS HELD

The Campaign Carried to Pillager, Verndale, Sebeka and Other Towns on Tuesday

It will be some days before the aggregate collections for the Red Cross in this territory can be announced, but a conservative estimate of Brainerd puts it at \$4,000 and perhaps more. This is considered a fine showing and liberal response, in view of the many demands being made upon those who are "left behind" in the great war effort but who are giving of time and money in order that those who are fighting for the nation may have comforts and attention.

Committee chairmen and ward workers are urged to make their reports at once, in order that the records of the campaign may be properly compiled by the secretary.

The down-town business section workers will report to Chairman LaBar, turn in their cash to him and he in turn will check up with the secretary. Some of the ladies who acted as ward captains in the house-to-house canvases have checked in with the secretary but there are still some to hear from. They are urged to make their reports at once. They will retain the cards and collect from those who have pledged amounts to be payable in installments and when these amounts are paid, they should be recorded with the secretary by the ward captain and will then be deposited to the credit of Treasurer Peterson.

#### Meeting at Pillager

A good meeting was held at Pillager last evening, Henry I. Cohen and Dr. Walter Courtney making the trip by auto and addressing an enthusiastic gathering of Red Cross workers.

The campaign, although officially closed the 25th, is continuing in a number of smaller towns in this section and general interest in the work is being indicated.

The Thabes tour Tuesday proved a big success, several towns being visited, literature distributed and short addresses made.

Rev. H. G. Stacey made an eloquent address at Sebeka, where a large gathering met to hear "The Little Giant of Brainerd," as the popular divine has been admirably referred to. Rev. Stacey has given much time and effort to this work and his services have been invaluable to the committee. Dr. and Mrs. Thabes, W. H. Gemmell and Rev. Stacey made up the party, visiting Verndale, Sebeka and other towns on Tuesday.

A meeting was held at Motley yesterday afternoon, where Mrs. O. H. Johnson and Mrs. Henry I. Cohen spoke to a group of earnest Red Cross workers. County Agent Colquhoun has organized the work at Pequot and a lively campaign has been under way there.

### FROM COAST TO COAST

A Remarkable Chain of Home Testimony. And Brainerd Adds Its Voice to the Grand Chorus of Local Praise

From north to south, from east to west;

In every city, every community; In every state in the Union Rings out the grateful praise for Doan's Kidney Pills.

40,000 representative people in every walk of life.

Publicly testify to quick relief and lasting results.

And it's all for the benefit of fellow sufferers.

In this grand chorus of local praise Brainerd is well represented.

Well known Brainerd people Tell of personal experiences.

Who can ask for better proof of merit?

J. T. Keogh, 323 N. Ninth St., Brainerd, says: "I was in bad shape with hard backaches and pains through my sides and hips. I could hardly endure the misery. I tried several medicines, but Doan's Kidney Pills which I got at H. P. Dunn's Drug store, gave me the first relief."

#### German Lutheran Aid

The Ladies Aid of the German Lutheran church, corner of Main and Broadway, will meet Thursday afternoon in the church basement. All are welcome.

### BAND CONCERT PATRIOTIC PROGRAM

Everyone is invited to join in the singing of the many military songs to be played tonight by Brainerd City band in their concert at Gregory park.

The Brainerd City band tonight will pull up stakes and move to Gregory park where, weather permitting, thousands will gather to hear the patriotic program. Not every number is patriotic but almost all of them are. The program is as follows:

1. "If I had a Son for Each Star in Old Glory, I'd Give Them All to You".....Burke
2. "Honolulu, America Loves You" (Fox trot).....Monaco
3. Waltz, "Gold and Silver".....Lehar
4. Grand Military Fantasia.....Robinson

Prayer for peace, cannon, bugle call, to arms, the assembly; rally 'round the flag, the reveille; drill call; the Raw Recruits, adjutant's call; Approach of the Guard, Kingdom Coming, Tenting on the Old Camp Ground, attention, assembly on the battalion; When Johnny Comes Marching Home; Tramp, Tramp, Tramp the Boys are Marching; Marching Through Georgia; The Vacant Chair; Bugle Call, lights out, taps; Auld Lang Syne. Three Cheers for the Red, White and Blue.

5. "America I Love You".....Leslie
6. "Old Glory".....Skedden
7. "In Old Arkansas".....Roberts
8. "Keep the Home Fires Burning" (Everybody sing the chorus).....Novello
9. "My Soldier Boy".....Brockton
10. "America Needs You Like a Mother".....Sewartz
11. "Uncle Sam" (Medley).....Palmer

"Star Spangled Banner"

#### MRS. DAVID HENRY DAY

Duluth Lady Who Taught Louis Gomberg, Died in Duluth—Known to Brainerd Musicians

(Duluth News Tribune)  
Death, after a five weeks illness, Monday claimed one of Duluth's prominent club women and musician in the person of Mrs. David Henry Day, who succumbed at an early hour Monday morning at St. Luke's hospital. Death terminated a year's sickness with meningitis and endocarditis.

As a musician herself and a loyal patroness of things musical, Mrs. Day was one of the foremost in Duluth, her activity in sponsoring musical and club events of merit together with a residence here of nearly 30 years, made her doubly well known to Duluthians.

Aside from her musical talent both as a portrayer and a tutor, Mrs. Day was an outdoor woman and possessed an enviable record in trap shooting. Shooting as "The Duchess" she hung up several records at the traps.

One of her most meritorious accomplishments was development of Duluth's boy pianist, Louis Gomberg. To widen the scope of the lad's talents Mrs. Day had planned to take him east this summer, but death intervened.

Surviving Mrs. Day are her husband, Dr. David H. Day, a sister, Mrs. S. F. Wadhams, New York, and two brothers, H. T. and J. A. Morris of Detroit and New York. Mrs. Wadhams arrived from New York yesterday, too late to see her sister alive.

Funeral arrangements were not completed last night.

#### Ladies Aid

The Ladies Aid society of the Norwegian-Danish Lutheran church will meet with Mrs. Nels Larson Thursday afternoon.

#### Wants a Rainy Wedding Day.

The Swedish girl prays for a rainy day on which to get married. Then before she goes to the ceremony attired in her wedding clothes she milks the cow, feeds the calf and steals a breast feather from the hen. That is to bring her husband good luck. The Swedish bride wears loose shoes, unbuttoned and untied, at her wedding. In one is a silver coin, in the other a gold one. This is to bring her the necessities and luxuries of life.—Chicago Tribune.

#### Hard Work for Women

It is doubtful if there is any work harder than house work. Overwork tells on the kidneys, and when the kidneys are affected one looks and feels older than the actual years. Mrs. A. G. Wells, R. R. 5, Rocky Mount, N. C., writes: "I cannot praise Foley Kidney Pills enough for the wonderful benefit I derived." H. P. Dunn, druggist.—Adv. mwf

### NEW BLOUSES.

Distinctive Points About the Late Spring Models.

One of the unusual features of the new blouses is the use of gingham and of dish toweling. To be sure, the latter is of the aristocratic type, made of linen and having crossbars of blue or red threads and mainly associated with the drying of fine china and silver.

Both gingham and linen models are intended to wear with the sports skirt of washable fabrics or of silk or jersey cloth. They are made on tailored lines, but it is permissible to have them trimmed with cross stitching in linen threads or with bands of rather heavy flannel lace.

Another sort of blouse that is out of the ordinary is made without sleeves and is fastened down the back. It is very likely that it will be worn with a guimpe by the normal woman. But for those who like freedom of the arms for tennis or golf and who do not mind sunburn the sleeveless model will prove very acceptable.

Back fastened blouses have come into favor again. They are found not only in the waist length models, but also in the peplum effects, which have gained somewhat on the vogue established for them last fall. Many of them are nothing more or less than Russian blouses, and, while some of them are made with deep collars, there are others that are without the neck finish, excepting for a Chinese band.

A vagary of fashion has brought about a revival of the high neck blouse for spring. Surely it would have seemed more logical to have withheld this type until fall, when the more seasonable period would have tended to popularize the resuscitated model. However, there are women who profess to be a little bit tired of the blouse built with the big collar and the open V neck and who will doubtless patronize the old-new type.

For more dressy wear there are blouses of chintilly lace, principally in white and mounted in white and flesh colored mousseline. A model that has recently arrived from Paris shows the front cut much longer than the back to give an apron suggestion. The blouse is a bit short waisted and is belted in by a wide rose colored ribbon tied in a pump bow, this treatment being repeated at the back where the lace drops below the waist line to form a postilion.

#### What a Library Is.

A leaflet, having for its caption the words, "I am the public library," is sent out by the public library of Danversport, Ia., which announces itself as follows:

I am the storehouse of knowledge in this city.  
I am opportunity.  
I am the continuation school for all.  
I am a house of wisdom and an institution of happiness.  
I am supported by the people for the people.

I offer you the opportunity to know all there is to know about your work.  
I am for those who would enjoy fiction, poetry, philosophy, biography, or learn more about business, trade and science.

I have books for all tastes and needs and creeds.  
I am free to the public to profit from and enjoy.

#### Quick Time.

Ada—Men are slow! It took him nearly two hours to propose to me last night. Floss—And how long did it take you to accept him, dear? Ada—Just two seconds.

If thou shouldst lay up even a little upon a little and shouldst do this often, soon would even this become great.—Hesiod.

### MUSIC AND DRAMA

#### At the Best Thursday

Through all his screen career, Earle Williams, the virile Vitagraph hero, has been noted for the realism which he demanded in his own acting. "Arsene Lupin," in which he plays the title role and which is the attraction at the Best theatre on Thursday forms no exception to this general rule.

One scene shows a fight on the stairway. The detectives suspect Mr. Williams of being Arsene Lupin but in the midst of the fight he is supposed to get away. The landing of the stairs where the fight took place was very high so Director Scardon ordered Mr. Williams to run up to the top of the flight and disappear. Everything went alright and finally the rehearsals were over.

ALMA HANLON  
IN  
"GOD & LITTLE  
CHILDREN"  
APOLLO-ART DRAMA

"Lights up," shouted the director. "Now stand ready. Go!"

Everything went alright. Mr. Williams' fists shot out hard and fast and those who were unfortunate enough to work next to him bore evidence of that fact for several days.

"Alright now, Earle," called Mr. Scardon. "Make your getaway."

Imagine the amazement of all concerned when, instead of running to the top of the stairway, Mr. Williams climbed to the banisters and jumped to the floor beneath. It took the "detectives" so by surprise that their concern was not the result of acting but rather a result of the unexpected. The jump did not take the star out of the camera's range.

#### Had a Very Bad Cough

This letter should interest every reader: "Last winter I had a very bad cough. I used medicines, but they did no good. I took one bottle of Foley's Honey and Tar and it cured me. (Signed) V. DeKester, Amberg, Wis." No substitute is as good as Foley's Honey and Tar for coughs, colds, croup and whooping cough. H. P. Dunn, druggist.—Adv. mwf

You Will Screen the Baby!  
SWAT THE FLY!  
STARVE THE FLY!

### "HE PROFITS MOST WHO SERVES THE BEST"

## Delicious--

Our soda drinks are simply delicious. That's the popular unanimous verdict.

Have you tried one? Have you teased your taste and satisfied your thirst with a cold, fruity, snappy soda drink as we serve it? Be it a simple fruit phosphate, a fizzy cream soda, or a luscious ice cream soda, you can get the flavor or combination you like best, and you surely will get as pleasing and satisfactory a drink as you could desire. The cream plain if you wish, a pure cream, smoothly frozen. The question of service is best answered by a trial. Come, get one drink at our fountain and note the extreme care and cleanliness and and rapidity of our service.

## LAMMON'S PHARMACY

"THE STORE WITH A CONSCIENCE"

### THE REAL THING.

Frenchy as Possible Is This Individual Design.

NEW LINES.

This natty outfit of bonnet and dress was designed by Paul Poiret's sister for Mlle. Polaire, who is said to be the homeliest actress in Paris. The material is tobacco brown broadcloth cut with a narrowly box plaited front, while the borders are of brown and green plaid.

### COMFORT BAGS.

What to Put in Them For the Soldier Boys on Duty.

Comfort bags for soldiers are being made by women engaged in war relief work. This is the time to make them in order that they may be ready when needed.

For a comfort bag it is well to use khaki cloth to correspond with the uniform. The most important thing is the equipment. Soldiers do not want a lot of useless articles to remember you by, but there are a number of things they do need.

For instance, if you wish to have your soldier write to you place a pocket in the bag filled with stamped envelopes, not loose stamps, as they stick together and are easily lost. Writing paper could be in the form of a pad or sheets could be slipped in each envelope so as to be ready for use when needed.

Of course soldiers need sewing kits, which can be purchased in a five and ten cent store for 10 cents each. The sewing kit may be a folder containing a thimble, needles, many black and white safety pins, buttons and other things of the kind. Of course these folders can be made at home. Safety matches, toothbrushes, washcloths, medicated cotton, bandages to be used for small scratches, darning cotton, darning needles, stomach bands knitted of gray wool, postcards and lead pencils are good things for the comfort bag. Naturally individual needs and tastes will be consulted.

The bag may be 13 by 10 inches. The initials of the owner, his state and the number of his regiment may be outlined on the outside.

#### At Home.

"Evidently he made himself perfectly at home here."

"That so?"  
"Yes. He left the bathroom every bit as untidy as my husband does."—Detroit Free Press.

There have been several instances of sleeps lasting twenty years.

Writing tablets of boxwood are included in II Esdras xiv, 24.

### RED CROSS DOG FILAX SAVED MANY SOLDIERS.

This Red Cross dog, Filax of Lewan, owned by Mrs. R. F. Wanner, was employed for several months in an army.

MRS. R. F. WANNER AND FILAX.

balance corps in France and is credited with having assisted at the rescue of fifty-four wounded soldiers. As he picked his way across the Somme battlefield, carrying relief to the wounded in No Man's land, shot and shell seemed to have no terrors for this animal.

Animals love their masters, but men seldom do.—New York American.

#### Baby Sleeps.

The smaller a child is the more sleep it requires. The little new baby should have about twenty-two hours sleep out of the twenty-four during the first three months, twenty hours the second three months, sixteen hours from then until one year old. The one-year-old child requires twelve hours at night, with a two to four hour nap; two years, twelve hours, with a nap of two hours, increasing to four hours; three years, twelve hours, with a nap of four hours, lessening to two hours; four to six years, thirteen hours, with a nap lessening from three hours to one hour; seven to nine years, thirteen hours, lessening to twelve hours, night sleep; ten to twelve years, eleven hours; thirteen to fifteen years, ten hours at least; sixteen years and more, nine hours. This is a practicable sleeping table for the average child and may be safely followed unless the child's physician orders otherwise.

#### About Blouses.

The blouse for summer is to be thoroughly comfortable. That much the early fashions indicate. There are some high neck garments, but these will not be nearly so popular as the ones which are cut round or V shape at the neck. Furthermore, the long sleeve is giving way to the elbow length one. In sport blouses as well as those for dressy wear the shorter length is preferred. The sleeves are fuller or wider at the elbow, and this is a factor in the wearer's comfort.

#### Sport Clothes.

There are real sporting clothes for the woman who takes part in the outdoor games, and there are the clothes for the woman who looks on.

#### To Prevent Self-Poisoning

Bowels clogged with waste matter poison the whole system. Foley Cathartic Tablets work gently but surely; do not gripe nor cause nausea. Recommended for indigestion, constipation, sick headache, bloating, biliousness, sour stomach, gas on stomach, coated tongue, bad breath or other conditions caused by disordered digestion. H. P. Dunn, druggist.—Adv. mwf

## You Can Tell The People Who Have Iron In Their Blood--- Strong, Healthy, Vigorous Folks

Doctor Says Ordinary Nuxated Iron Will Make Nervous Run-down People 100 Per Cent Stronger in Two Week's Time in Many Cases

New York, N. Y.—One glance is enough to tell which people have iron in their blood," said Dr. E. Sauer, a Boston physician who has studied widely both in this country and in Great European medical institutions, in a recent discourse. They are the ones that do and dare. The others are in the weakling class. Sleepless nights spent worrying over supposed ailments, constant dosing with habit forming drugs and narcotics for nervous weakness, stomach, liver or kidney disease and useless attempts to brace up with strong coffee or other stimulants are what keep them suffering and vainly longing to be strong. Their real trouble is lack of iron in the blood. Without iron the blood has no power to change food into living tissue and therefore, nothing you eat does you any good; you don't get the strength out of it. The moment iron is supplied the multitude of dangerous symptoms disappear. I have seen dozens of nervous, run-down people who were ailing all the time, double and even triple their strength and endurance and entirely get rid of every sign of dyspepsia, liver and other trouble in from ten to fourteen days' time simply by taking iron in the proper form. And this, after they had in some cases been doctoring for months without any benefit. If you are not strong or well you owe

it to yourself to make the following test: see how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. There is nothing like good old iron to put color in your cheeks and sound healthy flesh on your bones. But you must take iron in a form that can be easily absorbed and assimilated. Nuxated iron if you want it to do you any good, otherwise it may prove worse than useless.

NOTE—Nuxated Iron recommended above by Dr. E. Sauer, is one of the new or organic iron compounds. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy, in nearly all forms of indigestion, as well as for nervous, run-down conditions. The Manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron and increase their strength 100 per cent or over in four weeks' time provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by H. P. Dunn and all other druggists.

SUBSCRIPTION RATES  
One Month, Forty Cents  
One Year, strictly in advance, \$4.00

Office in Dispatch Building on 6th St.

Entered at the post office at Brainerd, Minn., as second class matter.

MEMBER

WEDNESDAY, JUNE 27, 1917.

Your Flag and my Flag!  
And, oh, how much it holds  
Of your Land and my Land  
Safe within its folds.  
Your heart and my heart  
Beat quicker at the sight;  
Sun-kissed and wind-kissed,  
The Red, the Blue and White!  
The one Flag—the Great Flag—  
The Flag for me and you—  
Glorified the whole world wide—  
The Red, the White, the Blue!

DOUBLE CENSORSHIP  
ON AMERICAN NEWS

Washington, June 27.—It has been learned the war department is planning a double censorship on news from the American front in France. One censor will be at General J. J. Pershing's headquarters and the other in Washington.

Under the proposed system news dispatches from France would not go immediately to their destinations in the United States, but be diverted from the cable in New York to Washington, where they would be given out for distribution, all newspapers and news services being entitled to receive them. This it is possible that under the proposed arrangement America would receive news of British and French activities before intelligence of its own army's engagements.

It is still said to be undecided how many American correspondents will be permitted to accompany the United States expedition for the American press, although the number, it was declared, will be small. The four originally suggested was thought by some military men to be too large.

## DOUBLES ON WAY TO TABLE

Retail Price of Canned Goods Twice Wholesale Price.

Washington, June 27.—Current retail prices on canned vegetables are nearly twice the prices paid canners by wholesalers for this season's output, the federal trade commission reported in connection with its investigation into food prices. The inquiry into canned goods, the commission explained, is to forestall speculative prices.

Wholesalers are paying about 7½ cents a can for corn and about 9½ cents for tomatoes and peas f. o. b. factory. The same cans are sold at retail at an average of 17 cents for corn, 18 cents for peas and 20 cents for tomatoes.

\*\*\*\*\*  
THREE DEAD AS RESULT OF  
LONG STANDING FEUD.

Muskogee, Okla., June 27.—What is said to be the termination of a bitter feud of many years' standing resulted in the death of three cattlemen near Cookson, twenty-five miles south of this city. N. N. Ballew, Frank Lucy and Ed Neely were the men killed.

\*\*\*\*\*  
Big Exports to Russia.

Washington, June 27.—What the United States has done to help Russia during the war was shown in a statement issued by the National City bank. Exports from this country to Russia during the first three years of the war would aggregate nearly twice as much as in the fifty years preceding hostilities. About \$1,000,000,000 is the value of exports to Russia since Aug. 1, 1914.

## His Excuse.

"How did you come to be a collector of antiques?"  
"I'll tell you. I was broke one year and had to think up some excuse for not buying up to date furniture."—Exchange.

GERMANS CEASE  
WORKING MINESBritish Troops Are Enveloping  
Lens Coal Region.

## BIG GUNS PAVING THE WAY

Heavy Artillery Duels at Various Points on Western Front Are Believed to Indicate That General Haig Is Preparing for New Thrusts Against Teutonic Line.

London, June 27.—As an indication Germans realize their tenure of Lens is short lived they have ceased the mining of coal in the vicinity of the city, about which the British troops gradually are drawing a net.

General Haig's forces are enveloping Lens from every direction except the east and its fall is only a question of time. Capture of this position will open to the allies the vast coal fields, the value of which have caused Germany to battle so stubbornly and at a heavy cost to retain.

Berlin asserts that heavy artillery duels are in progress at various points on the Western front. Reading between the lines of the German reports it is apparent the British are the aggressors and it is possible General Haig is preparing for new thrusts.

## Germans Bombarding Rheims.

The infantry activity between Soissons and Rheims has given way to artillery duels and a continuance by the Germans of the slow demolition of Rheims with gunfire. Berlin tempers somewhat the loss to the French at Hurbise farm by asserting a counter attack regained the greater portion of the lost terrain.

The Austrians have taken the initiative in the Asiago plateau sector of the Austro-Italian theater. Their objective is Monte Ortigara, but the Italians are holding them back valiantly and, according to the latest Roman communication, have inflicted heavy casualties.

Lively fighting continues between the Russians and Austro-Germans southwest of Lutsik in Volhynia and between the Strips and Dniester rivers in Galicia. Nothing has come through to show the extent of these operations.

NORWAY DISCOVERS  
GREAT GERMAN PLOT

Christiania, June 27.—Discovery of the German plot to destroy Norwegian steamers by explosives, unearthed last week, has appalled the whole nation. The newspapers demand publication of all the facts in the case and of the steps which are being taken to bring the matter to the attention of the German government.

In all a ton of explosives have been discovered, concealed in artificial lumps of coal, which presumably were to be placed in ship bunkers, and in bombs fitted with the most ingenious mechanism.

It has developed that a trunk full of explosives was brought to Christiania in February by a courier of the German foreign legation.

The trunk was addressed to the German embassy here and according to international usage it was admitted without examination.

After the discovery of the explosives the German embassy declared the trunk was destined for Finland, but no explanation was given as to why it had remained here so long.

The explosives were found in all manner of articles, including glass vials, fountain pens, pencils, cigarettes and tobacco.

At the examination of Aron Rantenfels, a German citizen and others arrested in connection with the case, it was admitted that explosives were also to have been placed on steamers bound for America.

## TO SELL AT FAIR PRICES

Coal Operators Agree Rates Must Be Reasonable.

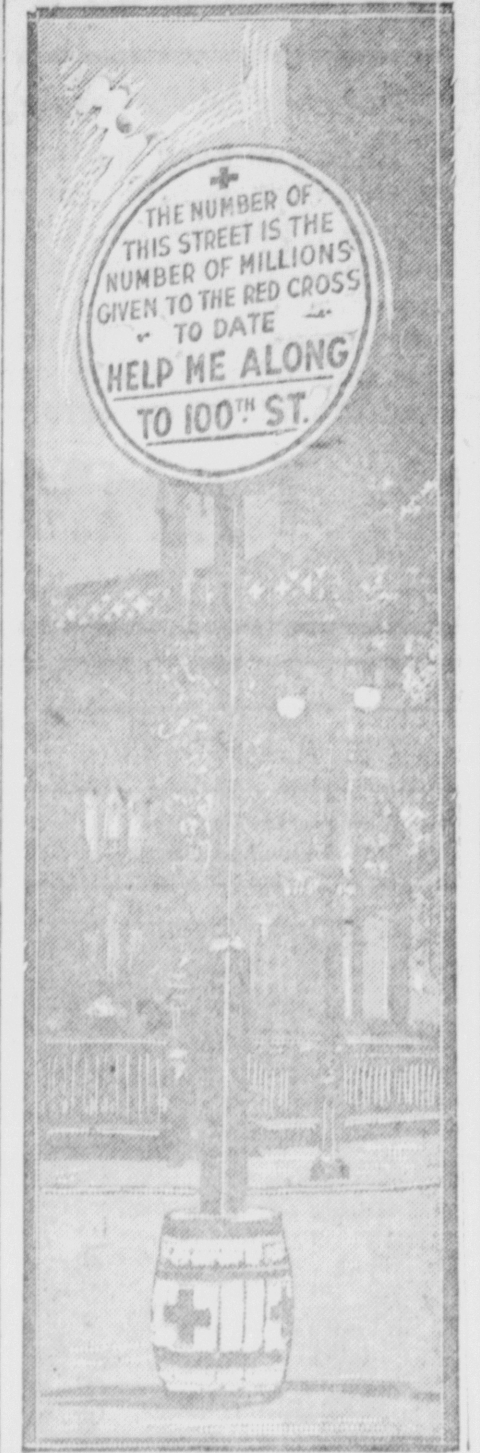

Washington, June 27.—Four hundred coal operators, representing the great bituminous and anthracite fields, pledged themselves here to sell their products at a fair and reasonable price to be fixed, with the approval of the defense council's coal committee, by special committees of seven producers from each coal mining state.

These special committees also are authorized to confer with the council's committee "to the end that production be maintained and plans be preferred to provide adequate means of distribution."

## TWO SENTENCED TO HANG

Three Others Given Life Terms for  
Slaying Family.

Minden, La., June 27.—John Long, Henry Walker and a negro were sentenced to life imprisonment and two negroes were sentenced to be hung for the killing of John Nelson Reeves, his wife and three children, about ten miles north of Minden, last Christmas eve.

How Red Cross  
Counts Subscriptions  
of Millions

In its campaign to raise \$100,000,000 the Red Cross, under the direction of H. P. Davidson, partner in J. P. Morgan & Co., who loaned him for the work, used this novel method of advertising in New York City the progress of its national effort. The photograph here taken shows the barrel on Fifth avenue at Eleventh street, near the First Presbyterian church, an historic old structure built in 1845, when the subscriptions amounted to \$11,000,000. The next day the barrel was moved to Thirty-fifth street, and it has been going north toward One Hundredth street rapidly.

Conspired with  
Russian Agitator  
Separate Peace

(By United Press)

Washington, June 27.—King Leopold of Bavaria, commanding the German forces, has conspired with the Russian agitator Lenin toward getting peace without annexation or contribution according to a deduction from the state department message.

Cocchi was Agent  
for White Slave  
Organization

(By United Press)

New York, June 27.—The first evidence linking Alfredo Cocchi with the murder of Ruth Cruger with international white slavery came from Blackwell Island prisoners who branded Cocchi as an agent for such organizations.

Pass River and  
Harbor Bill

(By United Press)

Washington, June 27.—The house has passed the \$27,000,000 river and harbor bill.

Shriners to  
Atlantic City

(By United Press)

Minneapolis, June 27.—The Shriners will go to Atlantic City next year. Charles Overshine, of Minneapolis, was elected imperial potentate.

Says Victim Slandered Her.

Newport, Ark., June 27.—Mrs. Randall Willard, thirty-two years old, wife of a farmer, is in jail here charged with having shot and killed Grover C. Osborne, twenty-nine years old, son of a neighbor at Swifton, twenty-four miles from this city. Officers say Mrs. Willard told them she shot the man because he made slanderous statements concerning her.

WAR NEEDS SPUR,  
CONGRESS TO ACTBits That Couldn't Pass In  
Normal Times Enacted Now.

## PERFECT HARMONY LACKING

Friction Between Executive and Legislative Departments Is Due to Habit of Those Who Administer the Laws Dictating the Draft of New Measures. Some Plain Talk by Senator Smoot.

By ARTHUR W. DUNN.

Washington, June 27.—[Special.]—The struggle between the executive and legislative departments of the government goes on much as it did during the administration of President Roosevelt and to some extent during Mr. Taft's term. It seems to be impossible to secure perfect harmony between those who make the laws and those who administer the laws.

Perhaps this is due to the fact that those who administer the laws have fallen into the habit of drafting the laws which they are to administer and asking the legislative branch of the government to ratify them. At least the fact stands out prominently that one of the great troubles of the present time is the objections which men in congress have to the bills sent to them by the executive branch which they are asked to enact into law.

## War Drives Them.

So much opposition has developed to the same measures that it has become apparent that only war necessity can drive them through. That these bills would fall under any other circumstances has been conceded generally. Even some of the provisions which the administration has wanted and insisted upon have been voted out of the bills, such as the censorship in the espionage bill and several features of the bill to control transportation.

Only war necessity could drive through the food control bill, and that is yet a long way from final enactment. It is likely to undergo quite a number of changes before it is finally passed.

## Plain Talk From Smoot.

Senator Smoot of Utah is the most punctual man in the senate, and, even though he is a member of several important committees, he generally is found in the chamber when the senate is in session. One day there was criticism from a senator who is frequently absent for long periods, the senator claiming that there should be more speed in passing legislation. And Smoot made this comment:

## Wants to Think For Himself.

Often it is said in the house that the crude legislation will be "whipped into shape in the senate." This suggestion rather irritated Congressman Howard of Georgia, who one day remarked:

"I want to do a little thinking for myself, and I do not propose that the body at the other end of the capitol shall do it for me. I want to do a little voting for my constituents in this body, which is responsible for legislation here."

## Not Candidates For Re-election.

Of the men in the senate whose successors must be elected next year five have announced that they would not be candidates for re-election. They are: Borah of Idaho, Fall of New Mexico, Nelson of Minnesota and Warren of Wyoming. Republicans, and Tillman of South Carolina, Democrat. Lewis of Illinois has not yet determined his course, nor Norris of Nebraska, although both have in private conversation indicated that they might not seek re-election. As to the others, it is supposed that they will be candidates for the seats they now hold. It is quite possible that on account of continued ill health Senator Goff of West Virginia will not be a candidate next year.

## Length of the Session.

"Congress could adjourn in a month," was the remark of one of the observers of congressional procedure. He might just as well have said a week, for he would only have been a few weeks further out of the way. Congress could close up business rapidly, but it will not do so. There is a lot of talk in the various bills still pending, and no one can tell when the session will be brought to a close.

## For Fireworks.

Those who have heard Chairman Simmons of the finance committee in a hot exchange with Senator Penrose, the ranking Republican member of that committee, might have assumed that they were bitter personal as well as political enemies. But that hot debate was mostly fireworks. They are good personal friends and work together with considerable harmony when they get down to business in the committee.

## Felt at Home.

An old fellow from the cattle country who attended the Confederate reunion said he felt perfectly at home in Washington. "Them automobile things skinned some of the old boys," he said, "but not me. They sounded so much like the bleating of the calves, bawling of the cows and the roar of the bulls that it seemed like I was pretty close to the old farm."

## BUTTE STRIKE SPREADING

Boilermakers and Machinists Have  
Been Ordered Out.

Butte, Mont., June 27.—All boilermakers and machinists employed by the four largest mining companies and one mill in the Butte district have been called out by their unions, which charged that the electrical work was being done by nonunion men. At some of the mines the blacksmiths also quit. The strike order was issued in sympathy with the strike called by the Electricians' union on the Montana Power company.

## TOTALS \$41,000,000 IN YEAR

Importation of Gems Not Lessened by  
the War.

New York, June 27.—Neither the high cost of living nor appeals for economy apparently have affected the importation of precious stones into this country. The value of gem imports for the eleven months of the fiscal year at the port of New York was officially given as \$41,078,302.

## Death List Is Now 157.

London, June 27.—Official figures of the casualties in the London air raid of June 13 have been announced. Subsequent deaths and the discovery of more bodies in the debris have brought the number of dead to ninety-one men, twenty-four women and forty-two children. The injured number 220 men, 110 women and 100 children.

## Three Wounded in Gun Fight.

Minneapolis, June 27.—Thomas Sullivan, constable at Hopkins, captured four transients after a gun fight near the plant of the Minneapolis Threshing Machinery company. Three of the men were wounded in the exchange of shots and one of them is not expected to live.

## Argentina Is Aroused.

Buenos Ayres, June 27.—The Argentine steamer Toro, 1,180 tons, has been sunk by a German submarine. Argentina is highly aroused. This latest occurrence is admitted to have brought Argentina close to severance of relations with Germany.

## Woman Novelist Dead.

London, June 27.—Katherine Sarah MacQuoid, novelist, is dead, aged ninety-three.

REFUSE TO RAID  
GERMAN CITIESBritish Officials Are Opposed to  
Air Reprisals.

## DEBATE IN HOUSE OF LORDS

Baron Sydenham, Former Chairman of Air Board, Deprecates Policy of Retaliation—Earl of Derby Declares England Should Not Try to Imitate German Brutality.

London, June 27.—No intention of yielding to the widespread demands for reprisals on German towns for the German air raids on England was shown in a debate on the subject in the house of lords.

The question having been raised by Lord Strachie, Baron Sydenham, former chairman of the air board, deprecated the policy of reprisals. He said he feels sure that in future years the British will be thankful they had not lowered themselves to the level of the Germans.

Furthermore, it is not generally realized that bombing reprisals of a military nature are a systematic and daily occurrence behind the German lines. He invites the government to tell the country something about these operations.

## Must Not Imitate Germany.

In behalf of the government the Earl of Derby, minister of war, expressed belief the whole country will associate itself with the suggestion that England should not try to imitate German brutality.

He added on the authority of the head of the aircraft service in France

that for every bomb the Germans dropped behind the British lines the British dropped a hundred behind the German lines.

This bombing, he said, had a solely military object and the government considered nothing should be done to tie the hands of military authorities in the employment of the aircraft at their disposal in the best way to bring the war to a successful conclusion.

## PER CAPITA DEBT IS \$74.64

Many American Cities Spending Beyond Their Income.

Washington, June 27.—American municipalities have been living beyond their incomes, according to a preliminary census bureau report for the fiscal year 1916 made public, which shows that the average per capita indebtedness for 213 cities is \$74.64, a figure nearly eight times as great as the corresponding figure for the national government.

The excess of expenditures over revenues in these cities amounted to \$73,591,070, or \$2.28 per capita.

The rapid growth of the urban at the expense of rural communities is marked. Wartime conditions have increased the demand for workers in the cities, especially in munitions centers, and consequently there has been a great exodus from the country districts.

## Cultivate Your Wife's Friendship.

"A man's best friend," says Bulwer Lytton, "is a wife of good sense and good heart, whom he loves and who loves him. In woman there are at once a subtle delicacy of tact and a plain soundness of judgment which are rarely combined to an equal degree in man. A woman, if she be really your friend, will have a sensitive regard for your character, honor and reputation. She will seldom counsel you to do a shabby thing, for a woman always desires to be proud of you. At the same time her constitutional timidity makes her more cautious than your male friend. She therefore seldom counsels you to do an imprudent deed."

## N. E. BRAINERD LEAGUE MEETS

Improvement Association Considers Neighborhood Matters at the Monday Evening Session

EDWARD R. CRUST PRESIDED

To Beautify School Grounds, Aim to Secure Band Stand, Hose House to be Repaired, Etc.

The Northeast Brainerd Improvement League met at the hose house Monday evening to hold its regular monthly session.

President Edward Crust called the meeting to order and the minutes of the previous meeting were read and approved.

The last month being a busy month with the members of the by-law committee they asked for further time. Same was granted.

The chairman of the street committee reported that the sand pile at the east end of the hill had been removed, the streets cleaned and the catch basins flushed. The committee further reported that work was being done on Ask avenue, and that the matter of 9th street N. E. was in the hands of the city engineer, but that no action had been taken in regards to repairing Kindred street north of Third avenue.

The members of the school board reported that nothing definite had been done in beautifying the school grounds, but arrangements had been made to put in three ornamental flower beds. Jno. Unterecker, the Northeast Brainerd florist, has donated a bed of 40 cannaes: Mrs. Emma Forsythe will put in a big bed of flowers and another bed of flowers will be arranged for by the committee. Definite plans for permanent improvements of the grounds will be before the League at the next meeting, and in the mean time will be taken up with the Board of Education and the Park board. The committee was given further time with power to act.

The committee on securing a band stand for this war was given further time. This committee thought it may be possible that the old band stand on Front street could be secured. They were instructed to see the city council regarding this matter and report at the next meeting.

The carnival committee reported progress. They were asked to put forth their best efforts to secure a carnival as soon as possible, as the proceeds, which we hope to derive from same, will be put into improvements that will benefit the whole city, and we want these improvements as soon as possible.

The motion was carried that a committee of three be appointed to make arrangements with the members of the city band for a band concert to be held in Northeast Brainerd. That the concert will be held at Lum park and that the proceeds of this concert will be used to improve Ask avenue, from Third avenue to the Park. That a cordial invitation be extended to the citizens of Brainerd and especially, the Auto club. An automobile parade would be appreciated.

Moved and carried that the city engineer inspect the third ward hose house with the view of making some very necessary improvements, as this building is a disgrace to this community and should be repaired.

Moved to adjourn until July 23rd, carried.

HUGO A. KAATZ, Secy.

### ROLL OF HONOR

Enlistments reported today by Corporal Raymond Lowrey, of the Army recruiting station, are Anton J. Nicholas, Erick Stekinen of 1291 East Laurel street, Charles G. Hill of 1223 Norwood street, all for infantry service.

Edward M. Hill of 1317 Norwood street enlisted in the quartermaster corps as baker. All will leave Thursday for Duluth enroute to Jefferson Barracks, Missouri.

William D. Snow will leave on Saturday. He is employed at The Northwest Paper Co. mill in Northeast Brainerd as electrician and enlisted in the infantry.

The detachment of the First Regiment Infantry stationed in Brainerd and guarding bridges, yards, etc., was inspected yesterday by Capt. O. M. Cuffer of the First Minnesota Infantry. He spoke very favorably of the conditions here.

He Almost Fell Down  
A. M. Hunsucker, Bogie Chitto, Miss. writes: "I suffered from rheumatism, kidney and bladder trouble, also dizziness; would almost fall down at times. Foley Kidney Pills gave me entire relief." Disordered kidneys give warning by pains in side and back, sore muscles, swollen joints, tired and languid feeling. H. P. Dunn druggist.—Advrt.

## HERSTAD WINS \$4,000 VERDICT

Against John and Mike Butorac, Later Driving a Car on East Oak Street Year Ago

HUDSON CAR TURNED TURTLE

Herstad Claimed Injuries of Broken Arm, Etc.—Trial Lasted for Three Days

The jury in the district court returned a verdict in favor of the plaintiff, Erling Herstad, of Crosby, Minn., against John Butorac and Mike Butorac, brothers, living at Crosby, in the sum of \$4,000.00, last evening after considering the matter about three hours, and which sealed verdict was read in court this morning.

Swanson and Swanson appeared as attorneys for Herstad and M. E. Ryan was attorney for John and Mike Butorac.

This was an action growing out of an accident occurring three and one half miles from the city, and at a culvert a short distance from the Oak Lawn school house, on November 8th, 1916. John Butorac was driving a new Hudson Super-six car and he had as passengers for Crosby, Mike Gross, Chief of Police C. A. Lewis, Clarence Rice and Erling Herstad, all of Crosby, the last three testifying they were to pay John Butorac for the trip, which Butorac denied. Several witnesses testified the car was going, after leaving the city limits, between 45 and 60 miles per hour, and that when on top of the hill west of the Oak Lawn school house, a Ford truck driven by J. H. Dickenson was some distance ahead. The evidence showed that Butorac did not slacken speed, and tried to pass on the right side of the Ford, which was going in the same direction. The driver of the Ford, upon hearing the car, turned to the right side of the road and John Butorac either had to hit the Ford or attempt to turn back to the left side of the road and pass him. However, it was testified that Butorac was going at such terrific speed so that when he turned his car to the left the rear wheels of the car struck the raised end of the culvert and the car turned turtle, jumping in the air about fifty feet with the wheels straight up in the air. Lewis was thrown over the fence 53 feet, the other four occupants of the car landed with the car on top of them. Herstad and Lewis with their faces in the mud and the side of the car holding them down. All were injured more or less. Herstad smothered and became unconscious. He, however, was revived after the car was lifted from him by Dickenson and Rice, and brought to the Northwestern hospital with the other occupants, by Rev. Hostager. Herstad's injuries consisted of broken right arm and dislocation of the same and injury to head, face and back and other bruised conditions of the body. The case was on trial for three days.

John Butorac was first sued as being the agent of his brother Mike, in whose name the license was, but upon new evidence being found that the car and material was charged to both of them an amendment was allowed making both John and Mike defendants, as joint owners of the car.

The defendants claimed that the plaintiff was guilty of contributory negligence because plaintiff asked the driver to speed up to get to Crosby to see his sick wife.

DISPATCH WANT ADS PAY

## PETER CARDLE GAME WARDEN

Seventh Street Barber Receives Appointment from Gov. Burnett to Position

WILL SUCCEED GEORGE RARDIN

Change will Take Place July 1 at which Time Mr. Rardin will Turn over the Office

A. P. Cardle has been named to succeed George Rardin as game warden in this territory and will assume the duties of the office on Sunday, July 1. Mr. Cardle, better known as "Pete" to a great portion of the Brainerd public, has been a resident of Brainerd for many years and has given much of his leisure time to hunting and fishing. He is at present in the employ of Louis Stallman in his tansorial parlors under the Citizen's State bank but it is understood that he will sever his connection there this week. Mr. Cardle's many friends are congratulating him on his good luck in landing the position.

Mr. Rardin, whom Mr. Cardle succeeds, has been in the employ of the state for many years in the position of game warden and has been one of the most efficient men in that service and his retirement from the service is no discredit to him as the letter appended will testify to, the change being the result of "who is who" in the political lay out. In informing Mr. Rardin of his successor's appointment Carlos Avery, game and fish commissioner, says:

"I regret that it is necessary to make a change in the warden service in your territory and would ask that you arrange to close up your work about the first of next month. I presume you have been aware of the negotiations which have been going on relative to a change, and would say that A. P. Cardle, of Brainerd, will succeed to the work in your territory."

I beg to assure you that I have been well pleased with your work and wish to express my appreciation of the loyal and intelligent service that you have given during the time that you have been in the employ of this department during my administration. I trust that the change may not inconvenience you and that I may have the pleasure of seeing you occasionally even though you may not be engaged in the warden service.

With best regards, I beg to remain  
Yours truly,  
CARLOS AVERY,  
Commissioner.

### WATER & LIGHT BOARD

Held Regular Meeting Last Night. New Water Supply for Brainerd under Consideration

The water and light board held its regular meeting Tuesday night and all commissioners were present. Minutes were read of the last regular meeting and of four special meetings, which indicates that the board is busy.

W. E. Skinner, Minneapolis, consulting engineer, submitted a new proposition for his employment regarding a new water supply.

On motion of Carl Zapffe and A. Weidemann the water service line on West Bluff was condemned and the secretary was instructed to furnish new service.

T. H. Crowell, of the Cuyuna Range Power Co., discussed the clause in their contract with the city which limited the city to certain hours for pumping with electricity. He said his company would waive that part referring to pumping at peak load hours.

Routine bills were allowed. A petition for a water main on Northeast Third Avenue was referred to the water committee. Two Tri-State telephones were ordered discontinued.

## SLACKERS SLIP FROM RIVERTON

Refused to Register, Arrive at Duluth and are Gathered in by Chief McKercher

WARRANTS FROM ST. PAUL

The Foreigners had \$1,600 in Their Possession, had been Working on Shaft at Riverton

(Duluth News Tribune)  
Detectives Bradley and Toeve and Deputy U. S. Marshal Troyer met a Soo line train from Ironton last night and arrested eight foreigners whom the sheriff of Crow Wing county said over long distance telephone to Police Lieutenant Wilcox had left the county. The men are alleged slackers and gave the following names and ages:

V. Adamovich, age 28; Henry Manalo, age 32; A. Juntinen, age 29; Arvid Leivo, age 22; Charles Nieminen, age 30; Arvid Horskainen, age 23; John Kashkivikka, age 28; and Robert Waanenen, age 26. The eight men had a total of \$1,600 in their possession.

Sheriff Claus A. Theorin of Crow Wing county last night declared that he had been watching 20 slackers for the last two weeks. They were employed he said, in sinking a shaft at Riverton for the Longyear Mining company.

"I sent their names to St. Paul," asserted the sheriff, "and I received word that the St. Paul authorities were busy and had no time to send men up here just now."

"Meantime, the men finished their work, drew their pay and left."

### BRAINERD'S ODDEST STORIES OF TODAY

Dog run over by automobile and owner of dog seeking remedy by law.

A remedy has been found for exterminating the pesky cutworms. Get a flashlight, a ladle and a tin pan, said Fred T. Lincoln, turn on the light and the cutworms will stand like a frightened deer. Use the ladle and pop 'em into the pan. A North Side gardener nailed 38 on a hunt the other night.

"That grand out-door life is not all what it's cracked up to be," said Anton Mahlum, to this column snap shooter.

In company with Charles and Howard Mahlum he went to his summer home on Long Lake. Anton was cook and had 3 painful and distinct accidents. He ground his ax while the boys took turns on the handle. With the first use of the ax, Mr. Mahlum demonstrated its cutting edge by cutting his thumb.

Later he burned a brush pile and burned his fingers. He grabbed a chunk of earth, applied it to cut and burns and speedily cured them.

Accident No. 3 happened when the city clerk was getting out the supper, and he burned his fingers on the tea kettle, which just at the moment had a full head of steam on and was belching it like an M. & I. freight sitting on a sidetrack and waiting for Orth to signal come ahead.

On the way home Mr. Mahlum got a lift by riding with D. A. Peterson, but it was a cold ride, as the only seat handy was a cake of ice and Mr. Mahlum was kept busy trying to maintain his seat.

A North Side four year old asked her mother if she might go out and play with the children. Her mother told her she might go and play with the girls but to stay away from the boys for they were too rough. Well, mother, continued the little one, if I find some nice smooth little boys may I play with them?

### FOR NAVAL ACADEMY

M. F. Crosby, Jr., of Crosby, Taking Examination at Federal Building Today

M. F. Crosby, Jr., of Crosby, is taking the preliminary examination for the naval academy at Annapolis at Brainerd and stands a good chance of winning it as friends are assured he will pass the tests physically and mentally.

The Curious Elephant.  
"The fact that the elephant's feet are padded renders his step noiseless, in spite of his great weight," a naturalist tells us, "and his extraordinary nimbleness seems almost incompatible with his great bulk."

We make it very interesting for those wanting garments. We have made special prices to finish the season promptly. If you can use a suit, a coat or dress or a child's coat you'll secure a marked reduction.

H. F. MICHAEL Co.

## LOADS OF BEER AT CITY HALL

Indian agents nipped in the bud several prospective beer parties when they seized on the run entering Ironton dry as bone Indian territory a Case, Studebaker and Bliver loaded to the guards with beer.

The beer, mostly in cases or sacked, was shipped to the city hall in Brainerd where a thirsty crowd took a peep at it. Many volunteered for the possible job of custodian.

## REGISTRATION RULES TO DATE

STATE OF MINNESOTA  
Adjutant General's Office  
St. Paul

The following telegram is published for the information and guidance of all concerned:

FRED B. WOOD,  
The Adjutant General,  
Washington, D. C.,  
June 29, 1917.  
Governor of Minnesota,  
St. Paul, Minn.

Number seven hundred sixty. Advice received here from some of the states seem to indicate a misunderstanding as to the policy to be pursued in respect of persons who for any reason did not register themselves on June 5th.

Paragraph forty, Registration Regulations makes it the duty of registration boards to register such person and no instructions modifying this duty have emanated from this office. So much of section five of the law as defers until conviction the registration of persons who have wilfully failed to present themselves for registration or submit thereto is continued as deferring only the compulsory registration of persons who continue to refuse to register. Unregistered persons may at any time voluntarily register at the registration board in their home county and city. Persons who have thus far failed to register shall be sought out and arrested by federal, state, county or municipal police and shall forthwith be given an opportunity to register. All arrests made by state, county and municipal police shall be reported to the nearest representative of the federal department of justice. Those whose failure to register is due to inattention or to lack of information or of understanding shall be released as soon as they have registered and those whose failure to register has been due to recalcitrance or wilful disobedience of the law shall be bound over for trial by the federal authorities.

CROWDER.

### AFTER DOG LICENSES

Police Department Making Record in Collection of 371 Dog Licenses to Date

Officer B. E. Koecher is making a record in seeing that dog licenses are paid into the Brainerd treasury. To date faithful work on the part of the officer has resulted in collecting 371 dog licenses. Cases brought against delinquents in paying such licenses have invariably proved successful.

John Nelson of West Brainerd was before municipal court on the charge of keeping an unlicensed dog, pleaded guilty and was fined \$4 which he paid and also paid the license on the two dogs on his premises.

As a traffic cop Koecher has succeeded in getting Brainerd automobiles and motorcycles to observe the 10 mile an hour gait in city limits.

Working under the direction of Chief John D. Gile street traffic laws are being enforced to the letter.

Devil's currency was the name given by the New Englanders to the wampum which the Dutch settlers in Manhattan and New Netherlands adopted as their currency from the Indians.

## Substitutes for Paints

are common and ruin your property. If it were possible to distinguish adulterated paint from pure paint by simply looking at it, the same as you would tell black from white, then there would be less substitutes used. On every can of

"Minnesota Paints"

is printed its exact contents which shows you it is all pure paint materials of the best kind with their own make of Pure Minnesota Linseed Oil.

Come in and talk paint with us.

HORSES BOUGHT, sold or exchanged. Always have from 10 to 15 head on hand. Jones & Horton. 886-2931f

WANTED—Boarding place for two children. Call on Mrs. Baker, 208 Front street or phone 609-W. 1066-2112

LOST—Crocheted bag containing pair glasses and kodak. Joseph Johnson, Route 3, Telephone Rural 0- ring 2. 1071-2112

WANTED—To buy scrap iron. Bring in while prices high. Also all kinds junk. Jones & Horton, Hay Market. 761-2731f

TAKEN UP—Bay horse and mare, weight team 2100. Owner can recover by paying cost. J. P. Prosser, 404 4th Ave. N. E. 1068-211f

WANTED—I have customers for residence property and vacant lots. List your property for sale with Jas. R. Smith, Sleeper block.

LOST—Black seal grain leather combination bill fold and note book with owner's name on outside in gold letters. Papers therein valuable to owner only. Reward for return to N. W. Tel. office. C. H. McCallin. 1061-201f

HAVE YOUR TRUNK and baggage delivered by auto truck dry cleaning. Headquarters Purity Ice Cream Co., 414 S. 6th street. Phone N. W. 727. Automatic 7046. Delos Turner. 856-288-1mo

Overeating Not the Scot's Sin. A northern writer finds a grievance in the fact that the exhortations to eat less are addressed indiscriminately to the whole of Great Britain. His patriotic contention is that at no time have the Scots eaten too much. He holds that nearly all of the overeating has taken place in England and that the heaviest eaters of all are the inhabitants of Yorkshire and Lancashire. One of his remarks is that a Scotchman's dinner is an occurrence, while that of an Englishman is an event.—London Chronicle.

SUBCOMMITTEE  
REWRITES BILL

## Senators Make Changes in Food Control Measure.

## OPPOSITION MORE PACIFIED

President Wilson Is Given Power and Responsibility of Deciding Whether Nation Shall Be Bore Dry During War—Iron, Steel and Many Other Products Put Under Government Control.

Washington, June 27.—The administration food control bill passed by the house has been rewritten by a senate agricultural subcommittee so as to give President Wilson the power and responsibility of deciding whether the nation shall be bore dry during the war and to place iron and steel and other products in addition to food and fuel under government control.

These and other changes are so satisfactory to many senators who have been opposing the original draft of the legislation that both advocates and opponents predicted passage in the senate by Saturday.

As a substitute for the house prohibition sections which, without qualification, forbid the manufacture of foodstuffs into liquor, the subcommittee adopted provisions which would prohibit manufacture during the war of all intoxicating beverages and empower the president to commandeer existing supplies of distilled spirits, but would authorize the executive, in his discretion, to permit manufacture of malted, fermented and vinous beverages and fix their alcohol content.

The subcommittee draft will be considered by the agricultural committee and probably will be reported at once for senate discussion without material change.

Senators prominent in the bitter fight against the legislation have announced their support for the redrafted measure.

## Prompt Action Is Expected.

Other signs of waning opposition and prompt senate action came in debate on the senate floor.

Opposition senators leading recent discussion yielded to Senators Knox and Nelson, Republicans, and Thomas, Democrat, for speeches strongly supporting the control legislation.

Future debate promised to center on the prohibition question, with leaders predicting an extremely close final vote.

For the house prohibition plan the subcommittee substitute provides:

"That from and after thirty days from the date of the approval of this act it shall be unlawful for any person, firm or corporation to use in the manufacture of any intoxicating liquor for beverage purposes any perishable or nonperishable feeds, foods or food materials.

"Whenever the president shall find it necessary to conserve the perishable products named he is empowered to prohibit the use of such products in the manufacture of vinous liquors.

"Whenever, in the judgment of the president, the public interest would be subserved thereby, he is empowered to permit the limited use of the materials mentioned in the manufacture of malt or fermented liquors and to prescribe the alcoholic content thereof."

Another section adopted would authorize the president to take over any or all distilled spirits now in bond on payment of a reasonable and just price to distillers, for redistillation into alcohol for war, industrial or other nonbeverage purposes.

## FULL PROBE IS ORDERED

Box Containing Dynamite Found at Fort Snelling.

St. Paul, June 27.—Mystery still surrounds the identity of the Fort Snelling dynamite skulker who escaped from two guards at the fort last Sunday night after he had been ordered to halt.

An investigation to disclose the man's identity and the origin of the dynamite box has been ordered by Brigadier General William H. Sage.

The box, containing ninety half pound sticks of extra powerful dynamite, is in the guardhouse of the First Minnesota Infantry. The box is the regulation Dupont shipping box and was placed in a beer case and partly buried in the earth.

## FRAMES MODEL ORDINANCE

Safety Commission Classes Agitators as Vagrants.

St. Paul, June 27.—Professional agitators of violence and disloyalty were classed as vagrants by the Minnesota public safety commission and will be punished as such under an ordinance drawn and approved by the commission.

The ordinance, which will be submitted as a model for adoption by municipalities and local town boards, supplements present vagrancy laws and gives authority to check effectively the dissemination of propaganda, bordering on treason, but not sufficiently treasonable to bring the propagandists under the law.

Expert Advice For the  
Automobile OwnerQueries and Replies Covering Matters of  
Importance to the Man Who Runs a Car

What compounds can be put on differential covers to prevent grease from leaking?

If the trouble is due to a leakage of oil through the pores of the differential cover it might be eliminated by applying a coat of shellac to the inside of the cover. If it takes place around the joint between the cover and the main part of the case it would be advisable to cut a gasket from felt about one-sixteenth or one-eighth inch in thickness, shellac this thoroughly on both sides, then shellac both edges or contact surfaces of both the cover and case and assemble the gasket and cover into position. After the cover has been applied in this manner do not use the car until the shellac has had several hours to dry, and you should have no more trouble from leakage at this point.

Why does my engine miss fire after running for eight or ten miles and getting warmed up? It does not get hot enough to boil the water and works well when first starting out, but after running for about six or eight miles it will begin to miss and lose power. The spark plugs are all good, the engine is in first class shape, and I cannot locate the trouble, which, no doubt, is very small if I could only get at the right place.

Look for fouled spark plugs due to poor mixture or excessive oiling. If not that, look for sediment in the gasoline tank or more probably in the carburetor. Dirt in the carburetor is likely to stop up the needle valve intermittently when the motor gets to pulling well. The trouble might be due to worn distributor.

It may be found that the compression in one cylinder is weaker than the others, due to the fact perhaps that one of the valves is not seating tightly because the push rod adjustment is incorrect. There should be at least one-sixty-fourth inch clearance between the end of the rocker arm and the valve stem when the valve is tightly closed. A weak valve spring also would give trouble such as yours. The motor would be liable to run nicely and regularly at low speeds, but would miss badly and generally intermittently when the motor was speeded up.

To test for a weak valve spring run the motor at sufficient speed to bring about the misfiring; then press on the valve springs so as to increase their tension against the seat of the valve stem. If the trouble is from this source the misfiring will continue. The remedy is either to fit up a new spring or to put a set of washers between the end of the spring and the valve seat.

Why are crank shafts counterbalanced? Is not the flywheel made for this purpose?

Crank shafts are counterbalanced to offset the driving force conducted to the piston and thence to all moving parts by the explosion of the fuel mixture. A sudden blow is imparted to the reciprocating parts when this explosion takes place. The counter balance is a weight so placed on the arm of the crank shaft as to check the sudden transmission of this blow to the crank shaft. It neutralizes the force of the blow without taking away its driving effect.

My car knocks when running idle or about twenty miles per hour. I have noticed when it is idle and running slowly it misses, but it does not miss when on the road. The valves have been ground and new spark plugs put in and all connections on the intake pipe made airtight. The knock is regular when running fast, but irregular when running slowly. Is the trouble with the magnets? I have noticed that one of the cylinders is not as strong as the others—that is, when the petcock is opened fire does not shoot out until the throttle is quickly opened. The knock seems worse just after the throttle is opened or the power is shut off. Can you tell me what the trouble might be?

The knocking in your motor may be due to a loose center bearing on the crank shaft. To test for this throttle down the motor so that it runs slowly and quietly, then open the petcocks of the two center cylinders. If there is a knock it is due to the misfiring, which in turn may be caused by improper adjustment of one of the valve tappets. There should be space of at least the thickness of a business card between the end of the valve stem and tappet when the valve is closed; otherwise when the motor gets warm and the stems become a trifle elongated from the heat the valve may not seat tightly. Test the compression of each cylinder after the motor is warmed up by cranking it over slowly by hand.

What is the difference in connecting the battery cells of a car in series or in parallel?

When batteries are connected in series the positive poles of one cell are connected with the negative of the next, and so on. When in parallel all the negatives are connected and all the positives. Connecting in series gives the effect of adding the voltages, while connecting in parallel adds the amperage. Thus, if six one-volt cells were connected in series the result would be a six volt current, while in parallel the voltage would be about one.

Will you please give me a formula of the material used for filling in around and over the top of storage battery cells to seal them in and prevent leakage? I have been unable to find such a formula in any work at hand.

The sealing waxes used by the different battery manufacturers are made according to a number of formulae, many of which are secrets of the concerns. However, you should be able to get a very satisfactory substance for this purpose from almost any wax supply house, or you should get excellent service from the use of marine glue. Marine glue is prepared by dissolving one part of India rubber in crude benzine and mixing with two parts of shellac by the aid of heat. The waterproof character of this cement in connection with its slight elastic flexibility, the ease with which it is applied when warm and the promptness with which it sets on cooling make it a most useful substance.

How much gasoline should an automobile engine use per horsepower per hour?

The quantity varies considerably, but a fairly reliable constant on which a number of authorities agree is one-eighth gallon of gasoline, having a specific gravity of 0.75 per actual horsepower per hour.

Will you please give me some information on how to keep a car looking as new as possible and what kind of body polish, if any, to use?

There is a great difference of opinion as to how the washing of a car should be done, but all authorities agree upon one thing, and that is the plentiful use of clear water as the first step. Clear water will wash off dust, dirt and mud, but it will not touch the grease or oil and leaves the car with a dull, dingy, streaked, lusterless appearance. Then make a thick suds with a neutral potash soap.

Before applying suds rinse the car well with a stiff stream of water from the hose so as to loosen up all the dust and dirt in order to prevent scratching the surface. This not only loosens the mud, which has become hardened, but reduces the probability of scratching the varnish when washing with a sponge. Then, with a clean sponge, apply a heavy suds, rinse off at once with clear water and a fresh sponge and wipe dry with chamois skin or cheesecloth. With some soaps, if the varnish surfaces are thoroughly washed and rinsed with cold water, the use of chamois skin is not necessary. Never use for a washing with soap the same sponge that has been employed for washing off the dust and dirt; never use hot water on the painted or polished surfaces. Cold water is preferred, but it may be just warm enough to have the chill taken off. Do not be afraid to use plenty of water. Remember that any soap is likely to injure a highly polished surface, but it will not do so if the parts are cleansed thoroughly with clear water after the soap is used. Most manufacturers of motorcar soap advise against applying any other polish after the final drying. They say that furniture polish, etc., is very apt to contain oil or turpentine, which dissolves the coach finish, dull it and leave a thin skin or coating which covers up the original polish. Other soap manufacturers recommend the use of first class body polish oil which is supplied by various oil manufacturers.

Can you tell me what effect there is on a generator to run a car with the storage battery removed, providing the wires are taped so that they are unable to ground?

On none of the apparatus produced to date should a car be driven with the storage battery off the line. With the battery off the line the voltage of the generator rises to a very high limit, so that it will burn out the headlights and also have an injurious effect on the ignition.

What percentage of ether is used with gasoline for fuel in gasoline engines? Does it give more power because of its high gravity, and is it true that ether is used by racing drivers in their gasoline used in racing cars?

The proportions of ether and gasoline usually employed are three ounces of ether to five gallons of gasoline. It vaporizes more easily than gasoline, but does not materially increase the power. It makes the motor start more easily. It is not true that ether is used in sanctioned races. Even if it were permitted there would be little gain. There are two substances which may be introduced into the cylinder to increase the power—sal ammoniac and picric acid. But their use is dangerous and shortens the life of the motor and is forbidden in officially sanctioned races.

How can I stop the rattling in the brake bands of my car?

The rattling of your brake bands and rods is probably due to loose and worn pins and eyes. These are working parts that are less often cleaned and lubricated and therefore subject to excessive wear. The remedy is to fit new pins, make them fit snugly, so that they will work freely without lost motion, then keep them lubricated.

True Smoke  
Smokes True  
Chews True  
Too

# Gosh, That's Good!

-seems like it gets better every day.

"Just started smoking True Smoke several weeks ago and it seems to get better every day. Most of my friends have been smoking it for years—they say it always acts like that: tastes better all the time. Not such a fancy package, but some tobacco!"

True Smoke is the choicest American tobacco grown—only in five of the many tobacco-growing states can we find tobacco good enough for True Smoke.

The flavor, fragrance, richness, all are natural in True Smoke—and the blend has proved its worth. Forty years of smokers' satisfaction is its recommendation.

True Smoke is sold in 10c flat or round bags and in 50c fiber containers. If you can't get it from your dealer, send us his name and address with 10c and we will see that you are supplied—at once.

## TERMS USED IN FEEDING

Scientific Nomenclature Reduced to Every-Day Meanings.

[National Crop Improvement Service.] Stockfeed consists briefly of three chief parts or compounds, omitting the water and minerals. They are:

Protein (containing nitrogen), a muscle former.

Fat (not containing nitrogen), a fuel or fattening substance.

Carbohydrates (meaning made of carbon, hydrogen and oxygen).

These three substances are called organic matter, because they will burn.

Mineral matter is called inorganic. An animal can live on protein alone, but would not under normal conditions, because protein (or albumen) is only found mixed with fat in the case of meat and with fat and carbohydrates in the case of plants and cereals. Familiar examples of protein are white of egg, lean meat and the gluten which can be chewed out of wheat. Fat or oil we all know.

Carbohydrates include sugar, starch, cellulose, fibre, gums, etc.

To keep alive and not lose weight an animal must have small amounts of protein and larger amounts of fat or carbohydrates. They serve as building material to replace worn-out tissue and flesh and also to furnish power (energy) to move, work, and do all the inside work of the body.

The ash or mineral matter furnishes bone material and is also necessary but abundant in nature. A growing animal needs plenty of protein and ash (bone food) and of carbohydrates and fat. A grown-up animal needs less of either the first two, but plenty of the last two. A pregnant animal needs plenty of food for its unborn young.

## BUYING FEED INGREDIENTS

Difficult to Buy Proper Feed Stuffs at Random.

[National Crop Improvement Service.]

There are not a dozen feed stores in the country that carry in stock all the ingredients of a first-class mixed feed at all times and at reasonable prices, and usually they do not carry feeds of the same high quality used by the mixers who work scientifically through a laboratory. This is human nature. Competition compels a dealer to sell the cheapest quality. The best quality of feed is seldom carried, because the average buyer will not pay the highest price. A good many experiment stations in a general way will advocate that a farmer mix all his own feed, but they are human like the rest of us and they will use recognized brands in their own feeding operations rather than go to the trouble and take the time to follow their own advice.

There are a good many herds at experiment stations which are kept as sort of a clinic for professors to practice theories upon. The poor brutes are used a good deal as guinea pigs in hospital practice. On the other hand, at the experiment stations are to be found many of the finest animals ever bred.

The mixed feeds of the first grade can be fed alone or in connection with home-grown corn, oats or barley. To do this widens your ration, and it is correct to do so if it will reduce your

## TIME TO BUY

Lose Money

## If You Don't Advertise in the Dispatch

cost of feeding. Mixed feeds, therefore, are largely a matter of arithmetic.

You can usually get the result for less money than by feeding more expensive grains separately.

THE MANURIAL INGREDIENTS OF FEEDS.

[National Crop Improvement Service.] Nitrogen is the most important and most valuable fertilizing element supplied by feeds, and it is in this element that they show the greatest variation.

The Connecticut Experiment Station states that it was found that the average mixed fertilizer contained 2.95 per cent nitrogen and showed in a table that eighteen of fifty-two different feeds contained 3.93 per cent. Among this list is cottonseed and linseed meals, gluten seed, middlings, brewers' and distillers' products, and a few of the feed mixtures. It is obvious, therefore, that a wise selection of feeds enhances the value of the manure and consequently plays an important part in farm economy.

They Study the Psalms. Every once in awhile some one arises to remark that Girard college propagates atheism. This is the echo of that provision in Stephen Girard's will which debars clergymen from the school.

But I notice that in the thirty-three bits of good literature which the boys must commit to memory during the first six years of their stay at the college there are five complete Psalms.

How many boys outside of Girard college do that well?—Girard in Philadelphia Ledger.
